Transfer meet results for duplicated swimmers

Duplicated swimmers create additional work and cause confusion for you, your staff, your athletes and their parents.

You and your staff can now aggregate meet results spread across duplicated swimmers by transferring the meet results to a selected swimmer.

To transfer meet results, click the **PEOPLE** tab > **Actions** column > ➡ (Transfer meet result) icon (on the **Search result** page, the ➡ icon only appears next to **Athletes**, not **Parents**):

The screenshot shows the ACTIVE SwimManager interface. The top navigation bar includes links for HOME, ATTENDANCE, PEOPLE (selected), VOLUNTEERS, COMMUNICATIONS, REPORTS, and TOOLS. Below the navigation bar, there's a search bar and buttons for 'Add miscellaneous fee' and 'Register an athlete'. The main content area is titled 'People' and 'Athletes'. It features a filter section with dropdowns for Gender (Female & Male), Age (No min to No max), and Attached (Attached). Below the filters is a table of athletes. The table has columns for Name, Age (birthday), Gender, ID, Dive certified, and Actions. The Actions column contains a red box highlighting the 'Transfer meet result' icon (a blue arrow pointing right) for each athlete listed.
